

Cleaning and grinding service for die faces.

BEFORE

AFTER

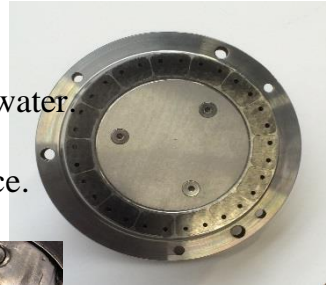

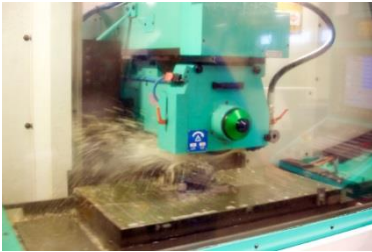

Kamadur Industrial Knives B.V. now offers cleaning and grinding for your die faces. Contamination with PET, PS, PP, HDPE, LDPE, PVC can be removed by pyrolysis and the cutting face made smooth again.

Cleaning your BKG®, Gala®, Rieter® dies.

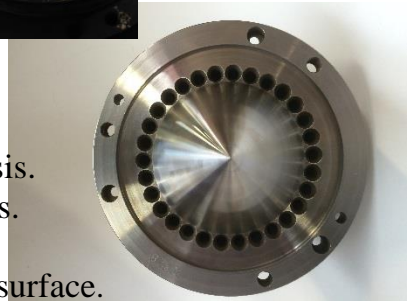

Clean

- all residues are removed by pyrolysis.
- die plate is cleaned with high pressured water. Some dust and corrosion could remain.
- sharpening of die plate for smooth surface.

Superclean

- all residues are removed by pyrolysis.
- die plate is cleaned with glass beads. All dust and corrosion is removed.
- sharpening of die plate for smooth surface.
